CITY NEWS IN BRIEF.

It is understood that D. H. Waters, though here laying a stone sidewalk around his home and Ottawa street property, has no thoughts of building just at present. Mr. Waters would like to lease the property for ninety-nine years and have some one else put up a building.

Among the prominent speakers from outside of the city who are expected to attend the Good Templars' institute to be held here August 22 and 23 are the Rev. R. A. Miller, George W. E. Hull and Anna M. Tyng of Iowa and E. F. Parker of Milwaukee.

The women of A. B. Watson Relief corps will give a basket picnic and reception at Reed's lake Wednesday afternoon in honor of the founder of the organization, Mrs. Emma Rhyman.

Next Sunday the South Congregational church will be reopened. The church has been closed some time and the pastor, the Rev. J. E. Smith, has returned from his vacation.

Business in the register of deeds' office last week showed a considerable increase over the work done for the same week last year. The instruments recorded numbered 217.

The police officers picked up a bicycle last night on Lake avenue and took it to police headquarters, where it awaits an owner. The officers think the wheel was stolen.

Senator Thomas Mears of Berrien county passed through the city yesterday on his way to Bay View, where he will address a farmers' meeting today.

Sunday Charles Richmond made a trip on his bicycle from the dock at Holland City to his home on Jefferson street in two hours and thirty minutes.

There will be a large turnout of carriages at the race track. The liveries report that most of their vehicles have been engaged for the entire week.

E. R. Averill, of the Northern Pacific railroad company at Helena, Mont., is visiting friends in this city, which was his former home.

The Hyers Musical Comedy company will sing at the Soldiers' home this evening for the edification of the vets.

Miss Maud Margaret Ryan will spend next week at Ottawa beach, the guest of Colonel and Mrs. W. T. McGurran.

W. L. Snyder, grand chief templar of the state lodge of Good Templars, left yesterday for his home in Detroit.

Mrs. W. W. Rose and daughter, Mrs. C. H. Young, are in Petoskey. Mr. Young accompanied them.

Go to the lake and hear Knoll and McNeil in their cornet solos.

Miss Ruby Hine of Detroit is visiting friends in the city.

L. D. Norris left yesterday for Mackinaw.

Mrs. H. G. Smith has returned from Petoskey.

Miller's notes at the lake don't leave.

Rabbits Learning to Climb.

The effects upon animals of a change in the conditions of their life is a favorite topic among zoologists, who find that nearly every species of animals existed in some other than its present form at some previous epoch of the world.

The whole, for instance, was once a land animal. Forced to take water for a living, he became in time much more like a fish in shape than like a land animal.

According to a Tasmanian paper a modification of the form of a familiar European animal is going on in the Australian world under the eye of the people there.

The Australian rabbit, imported from England, is acquiring tails on its feet and learning to climb. As is well known, the rabbits of Australia have increased to such enormous numbers that they have become a great pest, swarming over the land and devouring the farmers' crops.

In order to protect their fields the farmers put up wire netting in place of fences. The rabbits could not get through these, but they presently began to burrow beneath them.

Then the farmers sank the nettings six or eight inches into the soil. This stopped the rabbits from getting in by digging, but they presently began to attempt to climb over the netting.

As the result of this climbing, it is said, the rabbits are developing a nail in their toes. The nail development has been noticed in Queensland, and still later in Tasmania.

According to the theory of natural selection, it is likely presently to happen that in certain districts only those rabbits will survive which can climb at least a little, and in this way a race of climbing rabbits may be developed.—Chicago Mail.

The Russian National Hymn.

The great part which the Russian national hymn has played in western Europe since the French fraternization with Russia has started much inquiry about its origin. According to the Frankfurter Zeitung, the hymn is not yet fifty years old.

Nicholas was much impressed by the deficiency, and during his return journey toward St. Petersburg had much to do with the subject, and at last ordered him to compose a hymn for the Russian military bands. Loeff hereupon set music to Scholowsky's "God Be the Czar's Protector." The Scholowsky-Loeff hymn was first played publicly before the czar on Nov. 23, 1883, and so pleased the sovereign that he ordered it to be adopted as the national hymn of Russia. Loeff was not only rewarded by the gift of a gold snuff box set with diamonds, but permission was given to him and his heirs to adopt the first line of the hymn as the family motto.

A European Idea.

A matrimonial clubhouse is among recent innovations in a European city. It is a large, roomy building, divided into several apartments, in one of which portraits of each woman subscriber are exhibited, with full descriptions of her age, talents, fortune, color of hair, eyes, etc., size of hands and feet, and measurements of the bust and general contour. There is also a brief account of her life, whether widow or spinster, and of her particular penchant in alliance with bachelor or widower, merchant, lawyer or jurist, etc., all nicely tabulated and set forth. In another room are the portraits of men candidates for matrimonial bliss, but the descriptions are less elaborate, and confine themselves to an enumeration of the social status of the candidate and his financial condition.

A general reading room provides a medium for mutual meeting, and is presided over by an ancient dame who knits interminable stockings. There are also private rooms for more confidential telegrams. One of the curious rules of the place is that only ladies may enter the room where the men's portraits are, and men only are admitted to the women's gallery. They must meet in the common room. The establishment is conducted on moral principles, and the number of matches on its books approximates 1,000.—New York Sun.

The True Way of Looking at Failures.

"I have made a practice all my life," said a very successful man, "of looking upon failures as stepping stones, rungs on the ladder of life, anything but discouragements. When I was young and struggling I met with some unexpected check or disappointment I would say stoically to myself, 'Another difficulty is behind me,' and would really feel that the future held just one obstacle the less in my road to success.' What a brave spirit is shown in such a view of life—the splendid Anglo-Saxon quality of 'not knowing when one is beaten,' which makes heroes out of common clay and enables a man to conquer fate.

"Such a delightful view to take of my spoiled canvases!" sighed a young artist who was an interested listener to his comforting theories. "It is the only true way to look at things, believe me, my dear young lady," he answered.

"We are all so miserably finite that it becomes, after all, simply a question of degree. If we struggle bravely and patiently toward any goal that we place before us, we are bound to advance."—New York Tribune.

Mr. Vanderbilt the Richest Man.

One of the best of all authorities on wealth, a gentleman who has undoubtedly rubbed shoulders familiarly with a greater number of millionaires than any other person living or dead, remarked to me that he was sure that Cornelius Vanderbilt had a larger fortune than any other tenant of this planet. He was entirely familiar with the riches of the Rothschilds, and knew some of them personally. None of them could match Mr. Vanderbilt in plethora of millions.

The scores of millions of Jay Gould and John D. Rockefeller did not equal Cornelius Vanderbilt's possessions. This gentleman, however, did not credit the estimate of John D. Rockefeller's wealth at \$125,000,000. He thought it would hardly exceed half that amount.—Bakely Hall in New York Truth.

Blind New York Beggars.

A rather clever trick which is successfully done by a number of beggars in this city is to turn their eyeballs up until they appear to be blind. With their eyes in this condition they grind a small, wheezy hand organ, or stand on some prominent corner and hold a tin cup in their hands, thus most appealing for charity. A few of them attempt to sing, but they soon realize that it is too much to ask of mankind to listen to their singing and then give them money. To do this successfully for any length of time is very straining on the eyes, and may result in genuine blindness. But some of them have practiced it until it is impossible to discover by looking at them that they are not really blind.—New York Cor Chicago Herald.

Fireworks in Europe in 1860.

Fireworks first became known in Europe in 1560, when the Italians in Florence managed to make some. The first spectacle of fireworks was in 1588.—New York Evening Sun.

An old man of seventy-nine years living in Notaway county, Mo., plowed his own land this spring with a horse 39 years old, which was born on this same farm and has worked on it with the old man ever since.

THE LAND OF SUNSHINE.

A Unique Country Where the Skies Are Almost Never Clouded, While the Air is Cool and Bracing, Like a Tropical Spring.

As an anomalous southern resort, by reason of the fact that there one may escape summer heat no less than winter cold, New Mexico is rapidly becoming famous. Averaging throughout the entire territory 5,500 feet in altitude above sea-level, and characterized by dry air which, unlike a humid atmosphere, is incapable of communicating heat, the temperature in mid-summer remains at a delightfully comfortable degree through the day, and at night becomes invariably brisk and bracing. The sunning is almost constant, yet the most violent out-of-door exertion may be undertaken without fear of disastrous consequences. Sunstroke or prostration are absolutely unknown there. It is an ideal land for a summer outing. Its climate is prescribed by reputable physicians as a specific for pulmonary complaints, and the medicinal Hot Springs at Los Vegas are noted for their curative virtues. The most sumptuous hotel in the west, the Moencopie, is located at the springs. Write to Jno. J. Byrne, 733 Monadnock Block, Chicago, for "The Land of Sunshine," an entertaining and profusely illustrated book descriptive of this region, the most picturesque and romantic in the United States.

MUSKOGON AND RETURN

Via Grand Haven.

Next Sunday, August 14, the D. & G. M. Railway company will run an excursion to Muskogon via Grand Haven. Something over one year ago Mr. Charles H. Blackwell, known as a well-known agent for the sale of pianos and organs, was taken with the most intense pain in the left knee. After exhausting the usual supply of liniments and other remedies usually resorted to in these cases, without obtaining any relief, and finding the knee growing more painful and much swollen, a physician was called, who pronounced it a case of inflammatory rheumatism, and treated with medicine according to his code of ethics and mode of practice. Mr. B. continued to grow worse, the knee was swollen to twice its natural size and extremely painful. The limb was drawn up so that the toe did not touch the floor and shriveled and wasted to half its natural size above and below the knee, which was twice its proper size. In this woeful condition he came to Dr. French, who, upon examination, pronounced it "synovitis," a very severe inflammation of the synovial membrane of the knee joint. He gave him magnetic treatments and in three weeks Mr. B. was walking without his crutch, and in seven weeks was fully cured and can walk now as well as any one; not even a limp. This is only one of the hundreds of severe cases cured by Dr. French by his great magnetic healing power. Do not wait to see a case like yours published, or for some other sick person to get well, for while you are waiting your disease is growing worse and may become incurable. Pay no attention to those who tell you nothing but platitudes, every method of cure, forsake the old beaten tracks of medicine and come to Dr. French if you wish to get well. No matter what your disease, you can be cured if curable. An examination costs you nothing. Consultation is free and private. Office hours from 9 a. m. to 6 p. m.

A WONDERFUL GIFT

Healing by a Seeming Marvelous Power.

NO DISEASE ESCAPES ITS INFLUENCE

Cancer, Rheumatism, Dyspepsia, Neuritis, Stomach, Kidney, Gout, Glaucoma, Tumors, and All Chronic Diseases Permanently Cured—Dr. French the Most Successful Magnetic Physician in the World, No. 125 Fulton Street.

A more subtle and beneficial gift never came from Heaven than the magnetic gift of healing disease, and Dr. French seems to be endowed with this wonderful gift to a greater extent than almost any other man. Few possess this marvelous power, although many claim it. That Dr. French is possessed of some strong power to heal disease simply by applying his hands to the afflicted parts has been thoroughly demonstrated, but what the power is no one has been able to satisfactorily explain. Some say it is a secret known to him and others that it is spirit power, others that it is the work of the Lord, but Dr. French says it is a "scientific application of magnetic life or magnetic force" possessed by a strong and healthy body introduced into weak and exhausted systems. What the sick man wants is health. What the dying man wants is life. And he who can cure the sick and dying in the easiest and quickest way is the sick man's best friend, and is sought for by them far and near. Stop filling your stomach with worthless and nauseating drugs and patent medicines which only poison the system and aggravate the disease. Come to Dr. French at Hotel Vendome, No. 125 Fulton street, Grand Rapids, and be treated by new methods and become speedily and permanently cured. Something over one year ago Mr. Charles H. Blackwell, known as a well-known agent for the sale of pianos and organs, was taken with the most intense pain in the left knee.
